

AUDRAIN'S NEW JAIL

The plan of the two floors and perspective plan of Sheriff's residence and jail as proposed by said petitioners and accepted by Audrain County Court being one that would serve not only for the present but for generations to come.

The building as shown is 40 feet wide and 18 1/2 feet deep. It has a concrete foundation, with vitrified brick for facing and lined with vitrified brick which renders it absolutely damp-proof. It has a tile roof, which not only adds to the appearance but to the life of the building.

The front of the building is for the Sheriff and the rear quarters for prisoners.

The necessary steel cells will cost about \$10,000 and are absolutely fire proof, the cells are riveted to solid sheets of steel at floor and ceiling, upon which a concrete floor is laid, which makes the cells absolutely fire proof, and every cell is ventilated. A ventilating system is used in connection with the heating system and maintenance not costly. Each cell is well lighted.

Prisoners placed in above jail are not only in safe-keeping, but their health is not impaired upon hearing it.

There are four tiers of cells, with outer cells for females and juvenile prisoners, one padded cell for insane persons.

The four tiers of cells are separated from each tier, so that all classes of prisoners may be separated.

The Sheriff's residence is composed of six rooms, hall and bath, with Sheriff's consultation room which is connected to hall of the jail, said room to be used for consultation, jury service and for holding

inquests. The above plan is one proposed to be built for Audrain County on a 20 cent levy, for one year only.

The old jail is in bad condition, being held together with rods, the floors have settled, and the building is decaying of joints and improper ventilation, the building would collapse if it were not for the rods, and cannot be repaired.

All voters opposing said jail should investigate the old jail by making a visit to same before voting on jail levy April 12, 1913.

Ordered published by Audrain county court.

J. B. GRAHAM, County Clerk.

Mexico, Mo., March 6, 1913.

To the Honorable Circuit Court of Audrain County:

We, the Grand Jury, beg leave to report as follows: That we have examined into the conduct of the officials in office and the care and management of the County House and County records; and we commend the officers and the County Court for their careful and efficient management of the business of the County. That the building and equipment at the County Farm are new and we have not deemed it necessary to make a close inspection.

Further reporting, we wish to call attention to the unsanitary and unsafe condition of the County Jail. We have examined it and find that the jail portion is constructed of soft brick and that is old and weathered and that the walls thereof in their aged and water-soaked condition cannot be cleaned and disinfected; and that there is grave danger to persons confined there from tuberculosis and other germs contained in the walls thereof. That the cells are old pattern, small and ill-lighted and entirely insufficient in size and strength for the keeping of the persons necessarily confined therein. That there is no way in which the Sheriff can separate the unfortunate persons and female prisoners confined in the jail from the criminal classes.

Further, the jail is too small, and there is no way in which it can be properly lighted; and that it is entirely without any sufficient ventilation.

We further find that the jail house is unsightly, unsafe and inefficient.

LEE MOORE GUILTY—LIFE IMPRISONMENT

Columbia, Mo., March 14.

Lee Moore was found guilty of the murder of his mother and grand mother with an ax, this morning at about 10:30 o'clock. The jury brought in the verdict after being out about six hours and fixed his punishment as life imprisonment.

The case was given to the jury at 9 o'clock last night. On the first ballot every member of the jury voted the prisoner guilty, but on two more ballots they could not fix his punishment. The vote stood 9 for life imprisonment and 3 for death.

Court adjourned at about 10 o'clock. Court convened again about 7 o'clock this morning and the jury deliberated until 10:30 before the sentence was fixed.

Lee Moore, convicted of murdering his mother and grandmother at Columbia, was granted an appeal to the Supreme Court. His motion for a new trial in the Circuit Court was overruled.

Moore was taken to the penitentiary, Friday morning.

The victorious Missouri University rifle team passed through here, Sunday enroute from St. Louis where they won the relay at the Coliseum Saturday night. The team was held under the auspices of the M. A. C.

What Three Bushels More to the Acre Means

RIGHT years ago the farmers in a central state averaged crops that ran three bushels less to the acre than they now get. Suppose each acre of farm land in the country were so tended that it produced an increase equal to that of this state. How much more money would you have with which to buy the luxuries of life that you earn and deserve? Your share in this prosperity depends entirely upon you. The first step is to fertilize your land properly with manure spread by

I H C Manure Spreader

The spreader that does its work as it should must have many excellent mechanical features. The apron should move without jerking; the beater should meet the load at exactly the right point to pulverize the manure without too greatly increasing the draft of the machine; the speed changes of the apron should be positive. All these features are provided for in the construction of I H C spreaders.

I H C spreaders are made in low styles which are not too low for use in deep mud or snow, narrow and wide, with both reverse and endless aprons, for use under all conditions. The rear axle is located well under the box, instead of at the rear. Placed in that position (under the box) it carries over 70 per cent of the load and insures ample tractive power.

A TONIC LAXATIVE

Pe-ru-na, an Up-to-Date Family Medicine That Should Be in Every Home

S. B. HARTMAN, M.D.

good tonic laxative the great necessity of every sick person is to be prevented. Peruna is a remedy that should be kept in the house. Its virtue as a preventive to disease is the thing I wish chiefly to emphasize.

A slight condition of constipation may lead to serious complications of the bowels, biliousness, re-absorption of poisonous material and finally sickness. The food is not retained, and gradually leads to atonic dyspepsia or to the acquisition of some acute disease. A few doses of the tonic laxative Peruna would set matters right. This is why the remedy should always be kept handy.

When once the value of Peruna as a household remedy is understood no one would be so foolish as to discard this and purchase some other laxative. Peruna is a tonic and a purgative. It is a powerful appetizer and it gives the system a new lease of life. It is the best of all remedies for the bowels. Its function is gradually restored.

Most laxatives are weakening in their effect. A tonic laxative guards against this weakening effect. Until you have tried Peruna you cannot know its value. It is a powerful appetizer and it gives the system a new lease of life. It is the best of all remedies for the bowels. Its function is gradually restored.

Nearly everybody is obliged more or less to take a laxative. There are of course a few exceptions. A great many people also need occasionally to take a tonic. Probably few households exist that do not make use of tonics and laxatives.

The remedy Peruna is a laxative tonic. It not only operates as a gentle laxative, but also as a tonic.

The benefit derived from such a remedy is a great deal more in the prevention of disease than in the cure. After a person has really become sick, either with an acute or chronic disease, the rule should be to employ a physician, or some one who can give the case his personal attention. But long before this happens the person will complain of this or that symptom, which is not severe enough to interfere with his regular activities. If at this time he takes a few doses of Peruna, he has gained a foothold in the system, a person was to take a dose or two of a

Thousands of Women

Have Been Restored to Health By Lydia E. Pinkham's Vegetable Compound.

There is no doubt about this fact. Why? During the last 30 years we have published in the newspapers of this country volumes of letters from women who have been relieved of all their suffering by the timely aid of this grand old medicine. Letters like the following, true, genuine and honest expressions of gratitude coming from grateful hearts. Surely you can believe these women.

Mrs. L. S. BRENNER, Hudson, Mich., says:

"Some time ago I was taken with a terrible pain in my right side, such as I never felt before. I had had no children, but that did not matter. I went to my family doctor (we were living in Fayette, Ohio, at that time) and he said it was organic inflammation. I doctored with him while he kept getting worse. The pain was so terrible I could hardly stand on my feet. I would have that sharp pain in my right side, and a dull heavy pain the whole length of my limb. I realized that something had to be done quickly, so I looked up all of your advertisements. I could find no one else who had had such a case as mine. I bought a bottle of Lydia E. Pinkham's Vegetable Compound and it helped me from the first dose, and when I had taken two bottles my trouble was gone. My medicine has been so much for me that I am willing you should publish this letter for the sake of other suffering women."—Mrs. L. S. BRENNER, Hudson, Mich.

Mrs. L. E. BOWERS, Girard, Pa., says:

"I take pleasure in informing you of what Lydia E. Pinkham's Vegetable Compound has done for me. I had a sick spell last February, and for some months after that I was not regular and had many bad feelings. I was tired all the time, had dull headaches, no much appetite, and also what the doctor called organic inflammation. My Vegetable Compound has entirely cured me and I feel that too much cannot be said in its praise as I am now able to do my own work. You are perfectly welcome to use my testimonial for the benefit of others."—Mrs. L. E. BOWERS, R.F.D. No. 1, Girard, Pa.

Mrs. ELIZABETH GENTILCORE, Buffalo, N.Y., says:

"I feel that I must write to you about your wonderful remedies. About ten years ago I was troubled with female weakness and was all run down. I was tired all the time, had dull headaches, no much appetite, and also what the doctor called organic inflammation. My Vegetable Compound has entirely cured me and I feel that too much cannot be said in its praise as I am now able to do my own work. You are perfectly welcome to use my testimonial for the benefit of others."—Mrs. ELIZABETH GENTILCORE, 35 Glen Street, Buffalo, New York.

For 30 years Lydia E. Pinkham's Vegetable Compound has been the standard remedy for female ailments. No one sick with women's ailments does justice to herself if she does not try this famous medicine made from roots and herbs. It has restored so many suffering women to health.

Write to LYDIA E. PINKHAM MEDICINE CO. (CONFIDENTIAL) LYNN, MASS., for advice. Your letter will be opened, read and answered by a woman and held in strict confidence.

THE Moberly Democrat, referring to the importance of a farm adviser, editorially says: "The counties of Missouri are rapidly employing farm advisers. It is to be hoped that the people will be better pleased with the farm adviser than they were with the highway engineer. It was thought that the highway engineer would give us good roads beyond a doubt. For some reason or other if any counties retained the highway engineer any length of time, there will for a time be the same trouble about the farm adviser as there was about the engineer. It is difficult to find men qualified for either of the positions. To be successful, they must not only have the technical knowledge but must also have organizing ability. The combination cannot always be found and unless it is the greatest good will not be accomplished.

Why we use Open Heart Wire in Preference to all other kinds

Remember the iron wire your father and your grandfather had around the farm? Good old wire, wasn't it? The Special Open Heart Wire, as we make it today from our own (secret) formula, is more like the old time iron wire than that used in any other make of fence.

It takes longer to make this special Open Heart Wire, but it excels in strength, toughness and long life, and consequently makes the most serviceable, satisfactory fence. The wire is the very foundation of fence durability.
